

Greetings from the Chair;

Time flies when the weather gets nice... As many of you know, we are beginning the planning stages for our Capitol Campaign. During the last few months we have had several meetings regarding a feasibility study, forming our campaign committees and constructing a plan for our campaign. It's with great pleasure I announce Pat Hooper as the consultant who will be working on the feasibility study. The research will consist of focus groups, questionnaires and other research to inform the Capital Campaign planning committee how we can put vision on our path to accomplish our goal. This summer is going to be an exciting time as we form different committees, conduct our feasibility research and begin to contact those who might be interested in partnering with us for our campaign goal. If you have any comments, questions or general concerns, please don't hesitate to give myself or Deb a call...

Thank-you,
Dan Moloney (742-0474)
